Mr. Dempsey reported the total revenues for 2015/2016 would be $36,547,998, and total expenses for 2015/2016 would be $40,022,036.

Chairman Culver thanked Mr. Dempsey for his report. He asked for any comments.

Chairman Culver reported even though the county has cut 10 percent of the workforce over the last 10 years, the payroll keeps climbing due to things out of their control such as health insurance and the 3 percent step increase, and he stated the commission could not continue that. He stated as he eluded in Thursday’s meeting, in order to pass the budget many things had to be cut out. The chairman reported essential services will suffer if some solution isn’t found. Chairman Culver stated the commission has to either figure out how to fund the services that the county needs to provide or some significant changes would have to be made in those services that the citizens expect. The chairman reported the county is in sound financial shape, but they have to come up with solutions to these problems.
Commissioner Battles stated as the chairman pointed out, there were things in the budget that were not included due to the money not being there. He stated when an HVAC goes out, it has to be fixed. The commissioner reported technology is changing on a daily basis and the county has to be able to keep up. Commissioner Battles pointed out there is a lot in this budget being spent on upgrading the county’s technology.

Commissioner Shoupe reported he felt the commission was looking at three choices: Draconian cuts in personnel, revenue enhancement, or some combination of the two. He stated he did not feel there was a fourth choice.

Commissioner Sinquefield stated the commission has reached the point where he would like to have input from the citizens. He reported many of the county’s off system roads are in critical shape. The commissioner stated he would like for the public to consider where the county is going in 2016/2017.

Commissioner Harvey reported he was against employees losing their job or hurting any families, but at some point, the county is going to have to look at a one-half to one percent sales tax to increase the revenues.

Chairman Culver reported the state is working on its budget and that will also affect the county.

He called for the question; and the motion carried unanimously.
